MEDICAL SOLUTIONS

Life Enhancing. Patient Focused.

Targeted Solutions for: Cardiology, Emergency Medicine, General Imaging, Men's Healthcare, Neurosonography, Vascular & Women's Healthcare

ULTRASONIX

Imaging Accessories - Vol. 1

CIVCO's Needle Guidance Systems utilize a **two-part system** consisting of a reusable biopsy bracket and a disposable snap-on needle guide. The disposable needle guides snap onto the biopsy bracket, providing a fixed path for visualizing ultrasound-guided instrument placement procedures. Applications include tissue biopsy, fluid aspirations and catheter placement. **Single-angle** brackets offer imaging professionals a fixed angle needle path during puncture procedures. Brackets should be cleaned and disinfected according to your CIVCO User's Guide.

STEP 1

Each starter kit contains 5 sterile procedure kits including: needle guide, telescopically-folded CIV-Flex™ transducer cover, gel packet and colored elastic bands. U.S. patents 5,941,889 and 6,361,499.

STEP 2

DISPOSABLE REPLACEMENT KITS

Ultra-Pro II™ Replacement Kits

ENHANCED PRODUCT! The Ultra-Pro II needle guide now incorporates more flexibility and advanced features to increase productivity during ultrasound-guided procedures. The needle guide directs instruments according to on-screen software guidelines. The Ultra-Pro II features a larger tab for improved quick-release function, allowing easy detachment of the needle from the transducer. Easy-to-read gauge sizes on the inserts makes it simple to identify and alter gauge sizes in a darkened ultrasound suite. The guide now features a larger funnel for instrument insertion and will accept a full range of sizes, including: 8.5FR, 14-23GA(19GA not available). U.S. Patents 5,941,889 and 6,361,499.

REF. #	Product Description	Qty.
610-699	Sterile Ultra-Pro II	24
610-608	Sterile Ultra-Pro II with 14 x 91.5cm (5.5" x 36") telescopically-folded CIV-Flex cover (3D)	24
610-609	Sterile Ultra-Pro II with 17.8 x 91.5cm (7" x 36") telescopically-folded CIV-Flex cover (3D)	24
610-904	Sterile Ultra-Pro II with 14 x 147cm (5.5" x 58") telescopically-folded CIV-Flex cover (3D)	24

Latex-Free CIV-Flex™ Covers

Recommended for over a decade as the latex-free cover of choice, CIV-Flex covers are now available in extended lengths of 36 and 58 inches. These extended length covers offer additional sterile protection when performing routine puncture and drainage procedures. The improved telescopic-fold allows for easy application of gel, as well as easy application of the cover onto the transducer. Sterile general purpose procedure kits include transducer cover, gel packet and colored elastic bands. Select covers offer a three-dimensional "box end."

REF. #	Product Description	Qty.
610-323	Sterile 6 x 91.5cm (2.5" x 36") flat-folded CIV-Flex cover	24
610-001	Sterile 8.9 x 61cm (3.5" x 24") flat-folded CIV-Flex cover	24
610-637	Sterile 8.9 x 91.5cm (3.5" x 36") telescopically-folded CIV-Flex cover	24
610-002	Sterile 14 x 61cm (5.5" x 24") flat-folded CIV-Flex cover (3D)	24
610-542	Sterile 14 x 91.5cm (5.5" x 36") telescopically-folded CIV-Flex cover (3D)	24

610-1000	Sterile 10.2 x 147cm (4" x 58") CIV-Flex cover	24

Polyethylene, latex-free and specialty covers available at www.CIVCO.com

Bulk Packaged Latex-Free CIV-Flex™ Covers

Bulk packaged in an easy-to-use box, these non-sterile CIV-Flex covers offer added protection against cross-contamination between routine scanning procedures. Non-sterile colored elastic bands are included. These covers offer a three-dimensional “box end.”

REF. #	Product Description	Qty.
610-362	Non-sterile 14 x 61cm (5.5" x 24") flat-folded CIV-Flex cover (3D)	50
610-903	Non-sterile 14 x 30cm (5.5" x 11.8") flat-folded CIV-Flex cover (3D)	50

Disposable Needle Guides

- Reduces technique variability, reducing procedure time
- Contoured design for patient comfort
- Disposable design reduces risks of cross-contamination
- Most guides accept 16-18 gauge instruments
- Packaged with cover, gel and bands to increase efficiencies

Reusable Needle Guides

- Reduces technique variability, reducing procedure time
- Typically manufactured from stainless steel allowing autoclave sterilization
- Sleek design provides added patient comfort
- Most guides accept 16-18 gauge instruments

EC9-5/10

Reusable Endocavity Needle Guide

REF. #	Product Description	Gauge Size	Qty.
610-1012	Non-sterile endocavity needle guide, brush (5)	16-18	1

EC9-5/10

NEW! Disposable Endocavity Needle Guide

REF. #	Product Description	Gauge Size	Qty.
610-987	Sterile endocavity needle guide	16-18	24
610-988	Sterile endocavity needle guide with 2 x 20cm (.8" x 7.9") latex cover, 3.5 x 20cm (1.4" x 7.9") latex cover	16-18	24

3.5 x 20cm Latex Covers

Conveniently packaged in individually perforated packets, this looser fitting rolled latex cover provides protection from cross-contamination in all types of endocavity applications. Colored elastic bands are included with each cover.

REF. #	Product Description	Qty.
610-214	Sterile 3.5 x 20cm (1.4" x 7.9") rolled latex cover	50
610-010	Non-sterile 3.5 x 20cm (1.4" x 7.9") rolled latex cover	50

3.5 x 20cm Bulk Packaged Latex Covers

These cost-effective transducer covers are bulk packaged in protective light-sensitive bags for extended shelf life. Economically priced as low as 17 cents per cover, the covers provide protection against cross-contamination. Colored elastic bands not included, but are sold separately.

REF. #	Product Description	Qty.
610-249	Non-sterile 3.5 x 20cm (1.4" x 7.9") rolled latex cover	100
610-262	Non-sterile 3.5 x 20cm (1.4" x 7.9") rolled latex cover	500

Alternative sizes and kit configurations available at www.CIVCO.com

Latex PROcovers™

These high-quality, custom-sized PROcovers provide a defense against cross-contamination and protect endocavity transducers. All covers include colored bands.

REF. #	Product Description	Qty.
610-075	Sterile 2 x 20cm (.8" x 7.9") rolled latex cover	24
610-039	Non-sterile 2 x 20cm (.8" x 7.9") rolled latex cover	24
610-212	Sterile 2 x 30cm (.8" x 11.8") rolled latex cover	24
610-101	Non-sterile 2.6 x 30cm (1" x 11.8") rolled latex cover	24

Latex-Free CIV-Flex™ Covers

Especially popular for OB/GYN scanning procedures, CIV-Flex is a soft, pliable material comfortable for patients. The durable CIV-Flex material is acoustically transparent, offering distortion-free imaging. Designed specifically for ultrasound use, CIV-Flex slides easily over transducers and is a recommended alternative for latex-sensitive patients and professionals. Sterile cover kits include gel packet and colored elastic bands.

REF. #	Product Description	Qty.
610-006	Sterile 11.9 tapered to 3.8 x 61cm (4.7" tapered to 1.5" x 24") flat-folded CIV-Flex cover	24
610-007	Non-sterile 11.9 tapered to 3.8 x 61cm (4.7" tapered to 1.5" x 24") flat-folded CIV-Flex cover (no gel)	24

Latex-Free NeoGuard™ Covers

NeoGuard is a rolled, latex-free material specially designed for ultrasound use. Recommended for patients and professionals with latex protein sensitivities, these high-quality covers are available for popular endocavity transducers. Covers include colored elastic bands. Sterile gel packets are available separately.

REF. #	Product Description	Qty.
610-843	Sterile 2.6 x 30cm (1" x 11.8") rolled NeoGuard cover	24
610-836	Non-sterile 2.6 x 30cm (1" x 11.8") rolled NeoGuard cover	24

Soaking System for Endocavity Transducers

This newly designed lightweight soaking cup provides a safe and efficient soaking system for transvaginal and transrectal ultrasound transducers. This product now offers a larger blue funnel for use with larger style endocavity transducers. The soaking cup kit includes a 12" x 5" high-density polyethylene cup, lid, mounting hardware and contoured funnels for smaller transducers with a width of 2.2cm (.88") and a new funnel for larger transducers with a width of 2.7cm (1.08"). The larger funnel is now colored blue for easy identification. The contoured funnel prevents transducers from hitting the bottom of the cup, saving costly damage to the lens of the transducer. The soaking cup holds up to 120 fluid ounces of disinfecting liquid and will accommodate two endocavity transducers measuring up to 22.9cm (9") in length. When not in use, the lid is provided to prevent unpleasant fumes and evaporation of disinfectant or sterilizing solutions. The cup is recommended for use with glutaraldehyde cold chemical disinfecting/sterilizing solutions, including the Cidex® and MetriCide® families of disinfecting solutions. It is recommended the cup, lid and funnels are replaced when the disinfectant expires. Replacement cups, lids and funnels are sold separately.

REF. #	Product Description	Qty.
610-584	Endocavity soaking cup kit with polyethylene cup, lid, funnels(2) and mounting hardware	1
610-585	Replacement kit with cup, lid and funnels(2)	3
610-586	Soaking cup stabilizer, rubber feet (5), assembly hardware and stabilizer bracket	1
